

THE QUESTIONNAIRE
OF THE APPLICANT OF SCIENTIFIC DEGREE OF THE CANDIDATE OF SCIENCES,
OF SCIENTIFIC DEGREE OF THE DOCTOR OF SCIENCES
(taking into account the letter of "Mineduscience of Russia" from the 02.11.2018 y. № MN-969 / GT
"About the independent awarding of scientific degrees",
submitted in the electronic and printed format)

1. The details about the applicant

1.1.	Last name / last name of foreign citizen (according to the data of passport / visa in the Russian-language transcription)	<i>Vetrov</i>
1.2.	First name / first name of foreign citizen (according to the data of passport / visa in the Russian-language transcription)	<i>Anatoly</i>
1.3.	Patronymic / patronymic of foreign citizen (in the presence) (according to the data of passport / visa in the Russian-language transcription)	<i>Nikolaevich</i>
1.4.	Gender	<i>male</i>
1.5.	The date of birth	<i>the 26th of July 1980 y.</i>
1.6.	The citizenship	<i>the citizen of USSR, RSFSR and RF</i>
1.7.	The place of work of the applicant	<i>the name of organization – "The Saint-Petersburg state electrotechnical university "LETI" ("SPbSETU "LETI"), the departmental accessory – "The ministry of education and science of RF" ("Mineduscience of Russia"), the type of organization – "The Federal state autonomous educational establishment of higher education" ("FSAEEHE"), the name of structural subdivision – the chair "Automatics and control processes" ("ACP") of the faculty "Computer technologies and informatics" ("CTI") of "SPbSETU "LETI", the post – the teacher of the discipline "Intellectual technologies and representation of knowledge" (independently conducted the practical lessons in two groups of day department from the 01st of September 2003 y. to the 31st of August 2006 y.), the teacher of the discipline "Informatics" (independently developed the method. provision, gave lectures in six groups of day department and two groups of evening department and conducted the laboratory practical works in three groups of day department and two groups of evening department from the 01st of September 2004 y. to the 31st of August 2010 y.), the country – RF, the address of organization – RF, 197376, Saint-Petersburg city, st. Prof. Popov, h. 5.</i>
1.8.	The passport data	<i>the series – 4004, the number – 458503, by whom and when issued – the 22nd department of militia of Krasnogvardeisky district of Saint-Petersburg city on the 14th of August 2003 y.</i>
1.9.	The visa	<i>No</i>
1.10.	The address of registration for the citizens of RF	<i>RF, Saint-Petersburg city, pr. Energetikov, h. 36, fl. 82.</i>
1.11.	The address for correspondence (for all)	<i>RF, 195248, Saint-Petersburg city, pr. Energetikov, h. 36, fl. 82.</i>
1.12.	The electronic address	<i>WWW: www.vetrovan.spb.ru, Email: vetrovan@list.ru, vetrovan@nwgsm.ru</i>
1.13.	The number of contact phone	<i>+7(812)222-5291 (home), +7(812/921)950-2706 (cellular).</i>

2. The qualification data

2.1.	The educational establishment of the place of training in the post-graduate study / doctoral study / attachment study, the period of training	<p>2.1.1. <u>The country</u> – RF, <u>the name of organization</u> – <i>“TIP № 1 of Krasnogvardeisky district of SPb. city”</i>; <u>the departmental accessory</u> – <i>“The committee on education of Saint-Petersburg city”</i> <i>(“The ministry of national education of RSFSR”),</i> <u>the type of organization</u> – <i>“The state budgetary</i> <i>general-educational establishment” (“SBGE”),</i> <u>the name of structural subdivision</u> – <i>“Cybernetics” (“Informatics”),</i> <u>the address of organization</u> – RF, 195112, <i>Saint-Petersburg city, st. Tallinskaya, h. 21,</i> <u>the date of start and end</u> <u>of training / attachment</u> – <i>from the 01st of September 1995 y. to the 12th of May 1997 y.,</i> <u>the qualification</u> <i>“Programmer-laboratory assistant”</i> <i>on the specialty “Discrete mathematics</i> <i>and mathematical cybernetics”:</i> <i>the theory of information, programming,</i> <i>vector computer graphics</i> <i>and genetic algorithms</i> <i>[the certificate (diploma) with honors</i> <i>of the sample of RSFSR –</i> <i>the series “p.o.p.”, order “405”,</i> <i>circulation “5000”, the 19th of June 1989 y.,</i> <i>the average (secondary) professional education,</i> <i>physical-mathematical sciences].</i></p> <p>2.1.2. <u>The country</u> – RF, <u>the name of organization</u> – <i>“SPbSETU “LETI””,</i> <u>the departmental accessory</u> – <i>“Mineduscience of Russia”,</i> <u>the type of organization</u> – <i>“FSAEEHE”,</i> <u>the name of structural subdivision</u> – <i>the chair “ACP” of the faculty “CTI”</i> <i>of “SPbSETU “LETI””,</i> <u>the address of organization</u> – RF, 197376, <i>Saint-Petersburg city, st. Prof. Popov, h. 5,</i> <u>the date of start and end</u> <u>of training / attachment</u> – <i>from the 01st of September 1997 y. to the 11th of February 2003 y.,</i> <u>the qualification</u> <i>“Engineer”</i> <i>on the specialty “Control and informatics</i> <i>in the technical systems”</i> <i>[the diploma with honors of the sample of RF –</i> <i>the series DVS № 1230632,</i> <i>the higher professional education,</i> <i>technical sciences].</i></p>
------	---	---

2.1.3. The country – RF,
the name of organization –
 “SPbSETU “LETI””,
the departmental accessory –
 “Mineduscience of Russia”,
the type of organization – “FSAEEHE”,
the name of structural subdivision –
 the chair “Submarines” (“SM”)
 of the faculty “Military training” (“MT”)
 of “SPbSETU “LETI””,
the address of organization – RF, 197376,
 Saint-Petersburg city, st. Prof. Popov, h. 5,
the date of start and end
of training / attachment –
 from the 01st of September 1997 y. to the 11th of February 2003 y.,
the qualification “Engineer” (lieutenant of “NAVY of RF”)
 on the specialty «Operation and repair
 of ship fighting information
 control systems”
 (the automated control systems
 of submarines) (“MU-3”)
 [the diploma with honors of the sample of RF –
 confidentially,
 the higher professional education,
 military sciences].

2.1.4. The country – RF,
the name of organization –
 “The international banking institute”
 (“IBI”),
the departmental accessory –
 “Mineduscience of Russia”,
the type of organization –
 “The autonomous noncommercial organization
 of higher education” (“ANOHE”),
the name of structural subdivision –
 the chair “Banking” (“B”)
 of the faculty “Professional retraining
 and improvement of professional skill” (“PR and IPS”)
 of “IBI”,
the address of organization – RF, 191011,
 Saint-Petersburg city, Nevsky pr., h. 60,
the date of start and end
of training / attachment –
 from the 01st of September 2003 y. to the 24th of June 2004 y.,
the qualification “Expert-economist”
 on the specialty “Finance and credit”
 in the sphere “Banking”
 [the diploma with honors of the sample of RF –
 the series PP № 548008,
 the higher professional education,
 economic sciences].

2.1.5. The country – RF,
the name of organization –
 “SPbSETU “LETI””,
the departmental accessory –
 “Mineduscience of Russia”,
the type of organization – “FSAEEHE”,
the name of structural subdivision –
 the chair “ACP” of the faculty “CTI”
 of “SPbSETU “LETI””,
the address of organization – RF, 197376,
 Saint-Petersburg city, st. Prof. Popov, h. 5,
the date of start and end
of training / attachment –
 from the 01st of May 2003 y. to the 31st of May 2007 y.,
the qualification “Post graduate student”
 on the specialty 05.13.01 – “The system analysis,
 control and information processing”
 [the certificate about the passing
 of candidate examinations with honors
 of the sample of RF –
 from the 06th of December 2006 y. № 128,
 the additional higher
 professional education,
 technical sciences].

2.1.6. The country – RF,
the name of organization –
 “The Saint-Petersburg
 state university” (“SPbSU”),
the departmental accessory –
 “Mineduscience of Russia”,
the type of organization –
 “The Federal state
 budgetary educational establishment
 of higher education” (“FSBEEHE”),
the name of structural subdivision –
 the chair “Information systems” (“IS”)
 of the faculty “Applied mathematics –
 control processes” (“AM – CP”) of “SPbSU”,
the address of organization – RF, 199034,
 Saint-Petersburg city,
 Universitetskaya emb., h. 7-9,
the date of start and end
of training / attachment –
 from the 01st of July 2018 y. to the 31st of December 2018 y.,
the qualification “The applicant of scientific degree”
 on the specialty 05.13.01 – “The system analysis,
 control and information processing”
 [the agreement about the attachment
 for the preparation of dissertation
 on the competition of scientific degree
 of the candidate of sciences
 without the study of programs of training
 of scientific-pedagogical personnel
 in the postgraduate study
 of the sample of “SPbSU” –
 from the 25.06.2018 y. № 9.2018.1 / S,
 the additional higher
 professional education,
 technical sciences].

2.2.	The scientific degree of the candidate of sciences (in the presence), the year of award	No
2.3.	The scientific rank (in the presence), the number of certificate	<p>2.3.1. <i>The scientific rank</i> <i>"The author of the unique technology of cognitive modeling"</i> <i>(for the system analysis of the information-educational environments, the financial analysis of the (credit) organizations and the complex analysis of the difficult objects, processes and phenomena (nuclear polymers)) according to the items 1542, 1543, 1544, 1545, 1546, 1547 and 1551 of "CC of RF" ("AUT (CMT SFA)" – the author of technology of double, threefold and more appointment in different areas)</i> <i>[on the 07th of June 2004 y. there were published two sections</i> <i>"The tendencies of development of the information environment of remote education"</i> <i>and "The cognitive model for the adaptive systems of remote training"</i> <i>in the collective scientific monography "The factors of success in the educational activity of modern HEI"</i> <i>of "The international Higher education academy of sciences" ("IHEAS")].</i></p> <p>2.3.2. <i>The honorary scientific rank</i> <i>"The founder of the new (academic) scientific direction</i> <i>"Cognitive informatics (computer science), cognitive modeling technology for the system and finance analysis"</i>, <i>which is directly added</i> <i>in to "The registry of the new scientific directions" of "The Russian academy of natural science" ("RANS") [according to the decision of "The Presidium of "RANS""];</i> <i>the protocol № 699 from the 08th of June 2018 y.]</i></p>

3. The printing activity

3.1.	Researcher ID ("Web of science")	K-8655-2017
3.2.	Author ID ("Scopus")	-
3.3.	SPIN («РИНЦ»)	8395-4560
3.4.	The quantity of scientific works of the applicant, in total	265 (the 31 st of December 2018 y.)
3.5.	The quantity of publications on the theme of dissertation	42 (c.t.s.) and 79 (d.t.s.)
3.6.	The quantity of publications on the theme of dissertation in the editions, included in the international databases and the systems of citation ¹	-
3.7.	The quantity of publications on the theme of dissertation in the editions from "The list of reviewed scientific editions" ² <i>(without duplicating of publications in the editions, included in the international databases and the systems of citation)</i>	<p>05 (c.t.s.) and 12 (d.t.s.) scientific articles in the scientific journals, recommended by "HAC of RF" for the publication of scientific results of the dissertations on the competition of scientific degree of the candidate and doctor of sciences</p> <p><u>[there is fulfilled the requirement on c.t.s. – 02 s.a.];</u> <u>[there is fulfilled the requirement on d.t.s. – 10 s.a.]</u></p>

¹ "Web of science", "Scopus", "PubMed", "MathSciNet", "zbMATH", "Chemical abstracts", "Springer", "GeoRef".

² The list of reviewed scientific editions is formed in accordance with the order of "Mineduscience of Russia" from the 12th of December 2016 y. № 1586.

4. The details about dissertation work

4.1.	The theme of dissertation	<i>“The environment of automated training with the properties of adaptation based on the cognitive models”</i>
4.2.	The dissertation on the competition of scientific degree of the candidate of sciences / the doctor of sciences	<i>on the competition of scientific degree of the candidate of technical sciences</i>
4.3.	The cipher of scientific specialty	<i>05.13.01 – “The system analysis, control and information processing”</i>
4.3.1.	The name of the branch of science	<i>technical sciences</i>
4.3.2.	The area of research / specialization (in the presence) in the context of scientific specialty	<i>UDC 681.513.66+004.81 the adaptive systems of automatic control with the determined entrance influences and the reference cognitive models of the subject of training and the means of training, the reconstructed models of the cognitive processes</i>
4.4.	The cipher of the second scientific specialty (in the presence)	-
4.4.1.	The name of the second branch of science	-
4.4.2.	The second area of research / specialization (in the presence) in the context of scientific specialty	-
4.5.	Key words	<i>The system and financial analysis and control, information technologies, information-educational environments, automated training systems (at distance), innovative architectures and algorithms in the basis of automation means, (unique) cognitive modeling technology, (cognitive) informatics, psychophysiology of perception, cognitive psychology and applied linguistics.</i>
4.6.	The compliance to the priority directions of the development of science, technologies and technics (see Appendix 1)	<i>item 2. “The industry of nano-systems” (c.t.s. and d.t.s.). item 3. “The information-telecommunication systems” (c.t.s. and d.t.s.).</i>
4.7.	The compliance to the critical technologies (see Appendix 1)	<i>item 8. “Nano-, bio-, information, cognitive technologies” (c.t.s. and d.t.s.). item 12. “The technologies of access to the broadband multimedia services” (c.t.s. and d.t.s.). item 18. “The technologies and software of distributed and high-performance computing systems” (c.t.s. and d.t.s.).</i>

4.8.	The compliance to the priorities of scientific-technological development (see Appendix 1)	<p>+a) <i>transition to the advanced digital, intellectual production technologies, robotic systems, new materials and ways of constructing, the creation of the systems of processing of the large volumes of data, machine learning and artificial intelligence (c.t.s. and d.t.s.);</i></p> <p>+c) <i>transition to the personalized medicine, high-technological health care and technologies of health-saving, including due to the rational application of medical drugs (first of all the antibacterial) (c.t.s. and d.t.s.);</i></p> <p>g) <i>the ability of effective respond of the Russian society on the big challenges taking into account the interaction of human and nature, human and technologies, social institutes at the modern stage of global development, including the application of the methods of humanitarian and social sciences (c.t.s. and d.t.s.).</i></p>
4.9.	The area of research from the list of “Web of science” (see Appendix 2)	<p>“Natural and exact sciences” – <u>“Computer and information sciences”</u> – item 51. <i>“Informatics – information systems” (c.t.s. and d.t.s.).</i></p> <p><u>“Other natural and exact sciences”</u> – item 73. <i>“Multidisciplinary sciences” (c.t.s. and d.t.s.).</i></p> <p>“Medical sciences and public health care” – <u>“Clinical medicine”</u> – item 111. <i>“Otorhinolaryngology” (only otology) (c.t.s. and d.t.s.),</i> item 112. <i>“Ophthalmology” (c.t.s. and d.t.s.).</i></p> <p>“Technics and technologies” – <u>“Medical technologies”</u> – item 210. <i>“Medical laboratory technologies” (c.t.s. and d.t.s.).</i> <u>“Other technologies”</u> – item 220. <i>“Tools and devices” (c.t.s. and d.t.s.).</i> <u>“Electrical-technics, electronic technics, information technologies”</u> – item 238. <i>“Automated control systems” (c.t.s. and d.t.s.).</i></p>

4.10.	<p>The organization of the place of execution of dissertation (in the presence)</p>	<p>4.10.1. <u>The country</u> – RF, <u>the name of organization</u> – “SPbSETU “LETI””, <u>the departmental accessory</u> – “Mineducience of Russia”, <u>the type of organization</u> – “FSAEHE”, <u>the name of structural subdivision</u> – the chair “ACP” of the faculty “CTI” of “SPbSETU “LETI””, <u>the address of organization</u> – RF, 197376, Saint-Petersburg city, st. Prof. Popov, h. 5, <u>the date of start and end at training / attachment</u> – from the 01st of May 2003 y. to the 31st of August 2005 y. [full-time training in post-graduate study according to the copy of the approved individual training plan of work of postgraduate student (Vetrov A.N.) from the 01st of May 2003 y., certified by the deputy of head of “The personnel department” of “SPbSETU “LETI”” Sarayev N.A. on the 03rd of July 2007 y., certified by the head of “The personnel department” of “SPbSETU “LETI”” Shubinsky V.N. on the 19th of February 2010 y. – 23 sh., 23 p. and the work as the teacher (lectures and practice) according to the copy of the approved individual plan of teacher (Vetrov A.N.) for 2004-2005 ac. y., certified by the head of “The personnel department” of “SPbSETU “LETI”” Shubinsky V.N. on the 12th of September 2008 y. – 9 sh., 9 p., the copy of the approved individual plan of teacher (Vetrov A.N.) for 2005-2006 ac. y., certified by the head of “The personnel department” of “SPbSETU “LETI”” Shubinsky V.N. on the 12th of May 2008 y. – 9 sh., 9 p. and other individual plans of teacher (Vetrov A.N.) for 2006-2007 ac. y., for 2007-2008 ac. y., for 2008-2009 ac. y. and for 2009-2010 ac. y.],</p> <p>4.10.2. <u>The country</u> – RF, <u>the name of organization</u> – “SPbSU”, <u>the departmental accessory</u> – “Mineducience of Russia”, <u>the type of organization</u> – “FSBEEHE”, <u>the name of structural subdivision</u> – the chair “IS” of the faculty “AM – CP” of “SPbSU”, <u>the address of organization</u> – RF, 199034, Saint-Petersburg city, Universitetskaya emb., h. 7-9, <u>the date of start and end at training / attachment</u> – from the 01st of July 2018 y. to the 31st of December 2018 y. [the attachment for the organization of defence according to the approved agreement from the 25.06.2018 y. № 9.2018.1 / S about the attachment for the preparation of dissertation on the competition of scientific degree of the candidate of science without the study of programs of the preparation of scientific-pedagogical personnel in the post-graduate study, signed by the applicant, “AUT CMT SFA” Vetrov A.N. and the acting as the head of “The department of scientific researches” (“DSR”) of “SPbSU” Tarasov A.M. (with stamp seal of “SPbSU”) - 4 sh., 4 p.]</p>
-------	---	---

5. The details about scientific supervisor /scientific consultant

5.1.	Last name, first name and patronymic (completely) (the last in the presence)	<i>Kvitko Alexander Nikolaevich</i>
5.2.	The scientific degree	<i>doctor of physical-mathematical sciences</i>
5.3.	The scientific rank (in the presence)	<i>professor</i>
5.4.	The place of work and post	<i>the country – RF, the name of organization – “SPbSU”, the departmental accessory – “Mineduscience of Russia”, the type of organization – “FSBEEHE”, the name of structural subdivision – the chair “IS” of the faculty “AM – CP” of “SPbSU”, the post – the professor of the chair “IS” of the faculty “AM – CP” of “SPbSU”, the address of organization – RF, 199034, Saint-Petersburg city, Universitetskaya emb., h. 7-9.</i>

The applicant of scientific degree,
““the author of the unique technology” of cognitive modeling
for the system, financial and complex analysis at the micro-level”

The “24th” of March 2020 y.

 Vetrov A.N.

**THE PRIORITY DIRECTIONS
OF DEVELOPMENT OF SCIENCE, TECHNOLOGIES AND TECHNICS
IN THE RUSSIAN FEDERATION**

*(The extract from The decree of The President of The Russian Federation from the 07th of July 2011 y. №899
“About the approval of the priority directions of development of science, technologies and technics
in The Russian Federation and the list of critical technologies of The Russian Federation”)*

1. The security and counteraction to terrorism.
- +2. *The industry of nano-systems (c.t.s. and d.t.s.).*
- +3. *The information-telecommunication systems (c.t.s. and d.t.s.).*
4. The sciences about life (03.00.00).
5. The perspective kinds of arms, military and special technics.
6. The rational environmental-management.
- 6.1. The robotic complexes (systems) of military, special and dual use.
7. The transport and space systems.
8. The energy-efficiency, energy-conservation, nuclear power engineering.

**THE LIST OF CRITICAL TECHNOLOGIES
OF THE RUSSIAN FEDERATION**

*(The extract from The decree of The President of The Russian Federation from the 07th of July 2011 y. №899
“About the approval of the priority directions of development of science, technologies and technics
in The Russian Federation and the list of critical technologies of The Russian Federation”)*

1. The basic and critical military and industrial technologies
for the creation of perspective kinds of arms, military and special technics.
2. The basic technologies of power electrical-engineering.
3. The bio-catalytic, bio-synthetic and bio-sensory technologies.
4. The bio-medical and veterinary technologies.
5. The genomic, proteomic and postgenomic technologies.
6. The cellular technologies.
7. The computer modeling of nano-materials, nano-devices and nano-technologies.
- +8. *The nano-, bio-, information and cognitive technologies (c.t.s. and d.t.s.).*
9. The technologies of nuclear power engineering, nuclear fuel cycle, safe handling
with radioactive waste and spent nuclear fuel.
10. The technologies of bio-engineering.
11. The technologies of diagnostics of nano-materials and nano-devices.
- +12. *The technologies of access to the broadband multimedia services (c.t.s. and d.t.s.).*
13. The technologies of information, control and navigation systems.
14. The technologies of nano-devices and micro-system technics.
15. The technologies of new and renewable sources of energy, including hydrogen power engineering.
16. The technologies of production and processing of constructional nano-materials.
17. The technologies of production and processing of functional nano-materials.
- +18. *The technologies and software of distributed and high-performance
computing systems (c.t.s. and d.t.s.).*
19. The technologies of monitoring and predicting of the condition of environment,
preventing and eliminating of its pollution.
20. The technologies of prospecting, exploration and development of the deposits
of mineral resources and their extraction.
21. The technologies of preventions and elimination of the emergency situations of natural
and technogenic character.
22. The technologies of reduce of the losses from the socially significant diseases.
23. The technologies of creation of the high-speed transport facilities
and the intellectual control systems of new kinds of transport.
24. The technologies of creation of the rocket-space and transport technics of the new generation.
25. The technologies of creation of the electronic component base and the energy-efficient light devices.
26. The technologies of creation of the energy-conservation systems of transportation, distribution
and use of the energy.
27. The technologies of energy-efficient production and conversion of the energy on the organic fuel.

**THE PRIORITIES AND PERSPECTIVES
OF THE SCIENTIFIC-TECHNOLOGICAL DEVELOPMENT
OF THE RUSSIAN FEDERATION**

*(The extraction from The decree of The President of The Russian Federation from the 01st of December 2016 y. №642
“The strategy of the scientific-technological development of The Russian Federation”)*

- +a) transition to the advanced digital, intellectual production technologies, robotic systems, new materials and ways of constructing, the creation of the systems of processing of the large volumes of data, machine learning and artificial intelligence (c.t.s. and d.t.s.);*
- b) transition to the ecologically cleaner and resource-saving power engineering, the increase of efficiency of the extraction and deep recycling of hydrocarbon raw materials, the formation of new sources, ways of transportation and storage of the energy;*
- +c) transition to the personalized medicine, high-technological health care and technologies of health-saving, including due to the rational application of medical drugs (first of all the antibacterial) (c.t.s. and d.t.s.);*
- d) transition to the highly-productive and ecologically cleaner agro- and aqua-economy, the development and introduction of the systems of rational application of the chemical and biological protection of agricultural plants and animals, the storage and efficient recycling of agricultural production, the creation of safe and quality, including the functional food products;*
- e) counteraction to the techno-genic, bio-genic, socio-cultural threats, terrorism and ideological extremism, and also as cyber-threats and other sources of danger for the society, economics and country;*
- f) the connectivity of territory of The Russian Federation due to the creation of intellectual transport and telecommunication systems, and also the occupation and retention of leadership positions in the creation of international transport-logistic systems, the development and use of outer space and air space, The World ocean, Arctic and Antarctic;*
- +g) the ability of effective respond of the Russian society on the big challenges taking into account the interaction of human and nature, human and technologies, social institutes at the modern stage of global development, including the application of the methods of humanitarian and social sciences (c.t.s. and d.t.s.).*

The list of areas of researches
(“Web of science”)

№ s / s	The area of research	№ s / s	The area of research	№ s / s	The area of research
	Humanitarian sciences		Medical sciences and public health care		MMI and mass communications
	Science of art		Clinical medicine	186	Theory of information and library science
1	Architecture	93	Obstetrics and gynecology		Social and economic geography
2	Art	94	Allergology	187	Geography
3	Cinema, radio and television	95	Andrology	188	Researches of environment
4	Musicology	96	Anesthesiology	189	Logistics and organization of transportations
5	Theater science	97	Audiology and pathology of speech	190	International relations and regional science
6	Choreography	98	Diseases of peripheral vessels	191	Planning and development
	History and archeology	99	Gastroenterology and hepatology	192	Urbanistics
7	Archeology	100	Hematology		Sociological sciences
8	History	101	Geriatrics and gerontology	193	Anthropology
9	History and philosophy of science	102	Gerontology	194	Gender researches
10	History of social sciences	103	Dermatology	195	Demography
11	History of era of Middle ages and Renaissance	104	Respiratory system	196	Researches of social problems
	Other humanitarian sciences	105	Integrative and complementary medicine	197	Social sciences – mathematical methods
12	Interdisciplinary researches in the area of humanitarian sciences	106	Clinical neurology	198	Family and psychology of family relations
