THE FUNDAMENTAL SCIENTIFIC RESEARCHES BRANCH  
“COGNITIVE MODELING IN THE SPORTS SCIENCES” (“OSN”)  
OF “SIO "ACADEMY OF COGNITIVE NATURAL SCIENCES””

The developed “The fundamental scientific researches branch  
"Cognitive modeling in the sports sciences"” (“OSN”)  
treats to the fundamental scientific researches divisions  
of “SIO "Academy of cognitive natural sciences"” (“SIO "ACNS"”)  
as the main component of the system of science and education of the modern country  
for the creation, distribution and use of the main and derivative  
scientific results of the cognitive modeling technology (CMT) (www.vetrovan.(spb.)ru)  
[see the fundamental scientific researches branches and departments of “SIO "ACNS"”]:

1) it is executed by the principle of “administrative-economy submission”;  
2) works in the several main directions, which allow to provide  
the development of the fundamental main and derivative scientific results  
(my second report on SRW from 2006-2008(9) y. was submitted  
to “SPbSETU "LETI"” and “The Government of RF”  
for the translation, carrying out of int. action and receiving of “The Nobel prize”);  
3) includes the several various main divisions:  
I. “The fundamental scientific researches department  
"Theory of competitions, sport and sports sciences"” (“STSSSN”)  
*[the fundamental scientific researches in the area  
“Theoretical physical training and sport” –  
theory of physical training and sport,  
theory of the medical-biological bases of physical training and sport,  
theory of the material-technical base of physical training and sport,  
theory of the methodical bases of the kinds of sport, theory of sports competitions,  
theory of the cognitive modeling technology  
in the theoretical physical training and sport]*.

The fundamental scientific researches branches and departments of “SIO "ACNS””  
allow to develop the main and derivative scientific results of CMT.
